REDUCE USE CYCLE

COLOR CHOICE

PREMIUM STAINLESS STEEL

- **VACUUM INSULATION**
vacuum insulation technology Keep your favorite beverages at the most suitable temperature all day. Keep cold for 24 hours and heat for 12 hours. Even if the water bottle is filled with ice or boiling water, the outer wall of the water bottle will not sweat or heat!
- **STAINLESS STEEL**
other water bottles may use the cheap 201 surface layer. Our inner and outer walls are made of 18/8 304 food grade stainless steel. So it won't rust or leave a bad metallic smell in your mouth, and the electrolytically brightened inner wall is very easy to clean.
- **COLOR POWDER COATING**
vacuum insulation technology Keep your favorite beverages at the most suitable temperature all day. Keep cold for 24 hours and heat for 12 hours. Even if the water bottle is filled with ice or boiling water, the outer wall of the water bottle will not sweat or heat!
- **100% SAFETY GUARANTEEING**
safety is our top priority, which is why we never use recycled materials in our products, no PBA, no more than heavy metals.

A photograph of three tall, clear glasses filled with a vibrant orange-red liquid, likely strawberry lemonade. Each glass is garnished with fresh strawberries, green mint leaves, and a slice of lime. The glasses are arranged on a light-colored, textured surface. In the foreground, there are more strawberries and lime wedges. The background is softly blurred, showing more of the same drink and ingredients.
